

Strategic Plan Summary

2025-2029

Increase Collaborative Research Output

BPMRI will increase and support collaborative research projects making use of the BPMRI Platform and encourage the translation of health benefits to the community.

Enrich BPMRI's Research Enabling Platform

BPMRI will provide high quality education and training and advisory services to meet the needs of volunteers, the community and health care professionals.

Support Crucial People Resources & Operations

BPMRI will restructure & revitalise crucial people roles, governance systems & partnerships to effectively deliver excellence in operations & services.

Secure Sustained Forward Revenue

BPMRI will generate sustainable forward revenue streams to support ongoing current and future BPMRI operations.

Aspirations

BPMRI will be a highly utilized Research Enabling Platform and indispensable hub for collaborative researchers.

The platform will provide research, education and training services, access to valuable health data, and biospecimens.

With these resources, researchers will be able to perform extensive analyses, create valuable linkages, and significantly advance our understanding of chronic diseases and their risk factors.

BPMRI will be well-resourced and will have a diversely skilled Board, staff and volunteers. The BPMRI 'brand' will be highly recognized and respected broadly within Western Australia, nationally and globally.

Our Vision

BPMRI's Research Enabling Platform will be a highly utilised and indispensable hub for collaborative researchers.

Our Mission

To collect population health data for BPMRI's Research Enabling Platform and to foster collaborations for current and future biomedical research.
